ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

PN Med Group Inc. (or "the company" or "PNMG") is a distributor of medical supplies and equipment to municipalities, hospitals, pharmacies, care centers, and clinics in Chile. We are a development stage company, and have not yet commenced operations or generated revenues to date. We intend to provide reliable and fast service with low prices to our customers. We expect to generate revenues from sales of our supplies to customers. A customer will order our supplies by telephone, from our website www.pnmedgroup.com using special form, or directly at an arranged meeting with our representative. We will import all the supplies and equipment straight from the manufacturer in China and deliver them to our potential clients in Chile without the help of commission base agents.

We are currently not aware of any other known material trends, demands, commitments, events or uncertainties that will have, or are reasonable likely to have, a material impact on our financial condition, operating performance, revenues and/or income, or results in our liquidity decreasing or increasing in any material way.

Results of Operation

Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation.

We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

Three Months Period Ended June 30, 2012

Our net loss for the three months period ended June 30, 2012 was \$4,895. During the three months periods ended June 30, 2012 we have not generated any revenue.

During the three month period ended June 30, 2012, our operating expenses were professional fees of \$4,846, bank fees of \$37 and miscellaneous expenses of \$12. The weighted average number of shares outstanding was 5,000,000 for the three months period ended June 30, 2012.

Liquidity and Capital Resources

Three Months Period Ended June 30, 2012

As at June 30, 2012, our total assets were \$5,229 compared to \$8,443 in total assets at March 31, 2012. Total assets were comprised of \$5,229 in cash. As at June 30, 2012, our current liabilities were \$9,781.

Stockholders' equity (deficit) was \$(4,552) as of June 30, 2012 compared to stockholders' equity of \$343 as of March 31, 2012.

Cash Flows from Operating Activities

We have not generated positive cash flows from operating activities. For the three months period ended June 30, 2012, net cash flows used in operating activities was \$(8,645). For the period from inception (January 30, 2012) to June 30, 2012, net cash from operating activities was \$(8,802).

Cash Flows from Investing Activities

For the three months period ended June 30, 2012, the Company have not generated any cash flow.

Cash Flows from Financing Activities

We have financed our operations primarily from either advancements or the issuance of equity. For the three months period ended June 30, 2012, net cash provided by financing activities was \$5,431. For the period from inception January 30, 2012) to June 30, 2012, net cash provided by financing activities was \$14,031 received from proceeds from issuance of common stock and loans from shareholder.

Plan of Operation and Funding

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of our business.

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next three months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will

need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations. We will have to raise additional funds in the next twelve months in order to sustain and expand our operations. We currently do not have a specific plan of how we will obtain such funding; however, we anticipate that additional funding will be in the form of equity financing from the sale of our common stock. We have and will continue to seek to obtain short-term loans from our directors, although no future arrangement for additional loans has been made. We do not have any agreements with our directors concerning these loans. We do not have any arrangements in place for any future equity financing.

Off-Balance Sheet Arrangements

As of the date of this Quarterly Report, we do not have any offbalance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Going Concern

The independent auditors' review report accompanying our March 31, 2012 financial statements contained an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

No report required.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation was conducted under the supervision and with the participation of our management of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2012.
